PROFILE

Dedicated and results-driven professional with a unique blend of business acumen and technical expertise. I began my academic journey with a Bachelor's degree in Business Administration (BBA), where I honed my strategic thinking and leadership skills. Passionate about technology, I transitioned my career path to become a proficient MERN (MongoDB, Express.js, React.js, Node.js) Stack Developer.

WORK EXPERIENCE

Freelance Web Developer | Self-Employed

Project: QINTAR Company Website   December 2023 - January 2024

- Created a static website for QINTAR over a two-month period (December 2023 - January 2024), utilizing HTML, Tailwind CSS, and JavaScript.
- Designed an aesthetically pleasing and user-friendly interface, drawing inspiration from various web designs.
- Ensured a seamless user experience across devices through the implementation of responsive design principles.
- Leveraged Tailwind CSS for efficient styling, enhancing both the aesthetics and performance of the static website.
- Collaborated closely with the client to understand requirements and deliver a tailored solution that met their business needs..
- Incorporated interactive features using JavaScript to enhance user engagement within the static website.
- Successfully completed the project within the specified timeframe, receiving positive feedback from the client.
- Demonstrated versatility and creativity by independently conceptualizing and executing the design, making a substantial contribution to the client's online presence.

Frontend Developer (Internship)

Company name: Fibonacci   December -2023

- Engaged in a one-month internship at Fibonacci, contributing to the development of their dashboard.
- Utilized React JS and Tailwind CSS to create and enhance the website.
